- Affordable Care Act Implementation - FAQs II
- Coverage of Preventative Services - Fact Sheet
- Grandfathered Health Plan - Model Notice
- Health Coverage for Young Adults - Model Notice
- Lifetime limits - Model Notice
- Patient Protection - Model Notice

MEHRINGER & ASSOCIATES OFFERING HIPAA & COBRA PRODUCTS

Mehringer & Associates has assisted many clients who purchased "HIPAA Kits" but were unable to complete the compliance process without additional assistance. In response to numerous requests, Mehringer & Associates will offer two new products beginning November 1, 2010.

The HIPAA Compliance package offers all required documents (including HITECH), and will be available in two versions: one for employer groups and one for the small agency. The process begins with you answering easy to follow Privacy & Security questions and emailing the answers to our company. From these answers, we develop your Privacy & Security Assessments (with recommendations), and Privacy Policies and Procedures, tailored to your company. In addition, we include weekly assistance (via email or phone) for up to 90 days to help you complete the process. For the agency that must also comply with GLBA (financial privacy), all GLBA requirements are included at no additional cost. And as an added bonus... if HIPAA requirements change within 6 months of purchase, compliance updates are furnished at no additional cost.

The COBRA compliance package will offer COBRA Policies & Procedures tailored to your company, all required notices, and weekly assistance (via email or phone) for up to 60 days.

If you would like more information on these products, please visit our website after November 1, 2010 (www.MehringerAssociates.com) or contact Marlene Bowen at (812) 449-9782.

For more information on these topics, contact:
